These look great, Danielle. What was the CF limit below which you didn't include data for that date?

I have attached an updated spreadsheet with graphs for each of the time periods identified (on sheet 3). We can easily add in the flow data that John has - I can do that if you want to send it to me, or you can feel free to add it in. If you need help just let me know.

I'm free to discuss this afternoon if you guys are interested.

Danielle
